PEBBLE

A timeless product is created, which became the most popular product in our textile range.

The Pebble stones are made from a fabric most used in the production of children's cuddle toys. The production of each 'Pebble Rug, is a labour intensive process, with minimal machinery used. A 210x150cm rug is made from 3000 individually hand stitched pebble stones.

New products and new colors are helping the sales. We upgrade the collection with different colour palettes to suit European market. The pebble collection is booming in the Dutch, German and French markets. The rugs and matching cushions enriches every interior.

A perfect basic cushion in a bigger size, to start the first layer for any combination and create the comfortably, complete, cosy experience. This twin cushion is also very functional as a floor cushion.

The collection is based on the backside of the pebble cushion. We try to make the contrast by mirroring the most popular colors of the backside of the pebble cushion for each theme.
