RESPONSIBLY SOURCED MATERIALS

To us sustainability and responsibility go hand in hand, but most importantly, we make sure we can document what we do.

FALK consists of three parts; the shell, the seat and the legs. All parts are created with an environmental mindset, using natural materials from responsible sources. FALK is designed to last a lifetime and more, and is currently providing 5 years warranty.

FALK LIFE CYCLE

At HOUE we are determined to ensure right steps are taken in creating responsible furniture, meaning considering both social and environmental impact in the things we do.

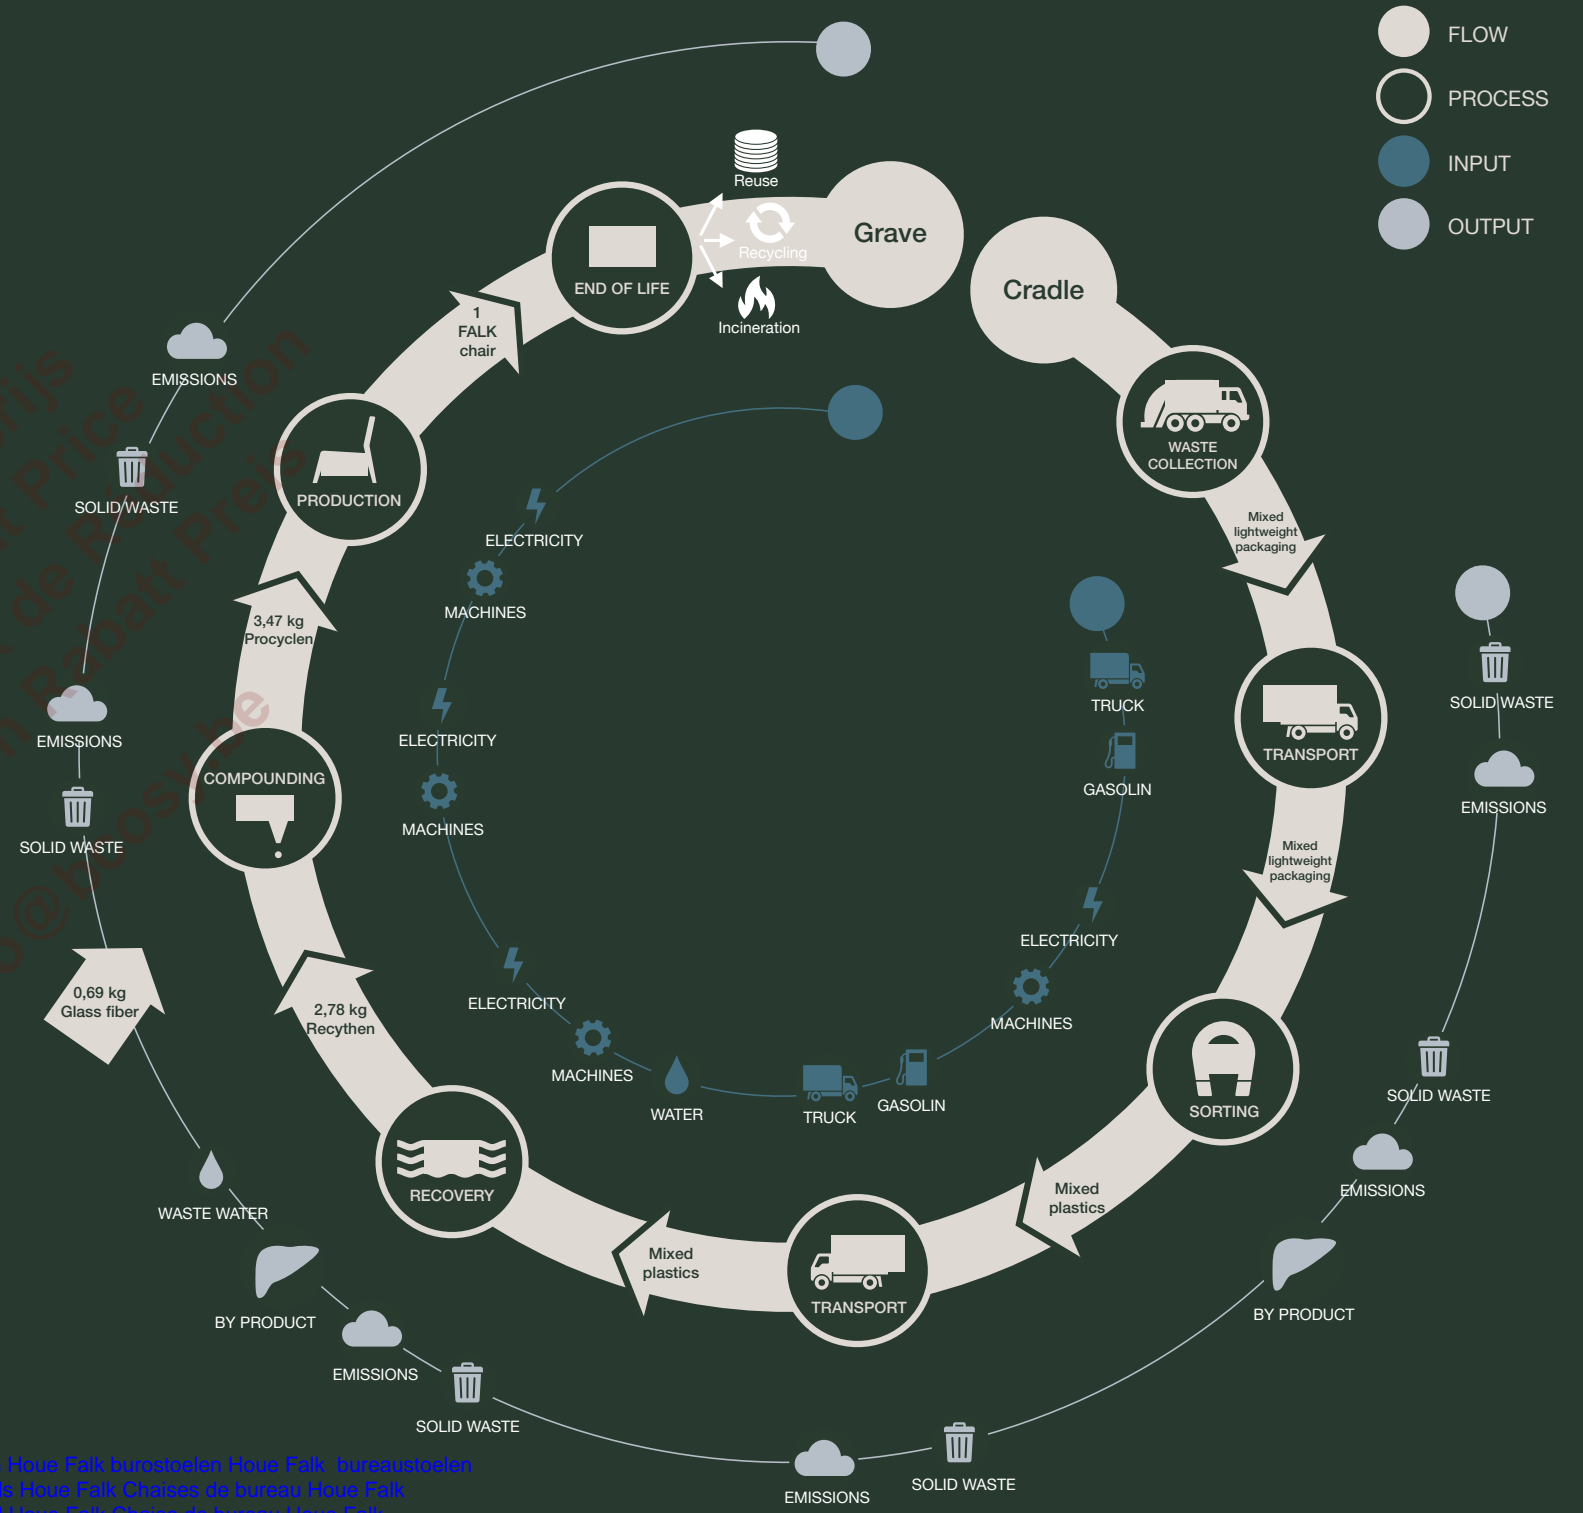

We do work with a systemic perspective, taking into account how things are always connected. Consequently, we base our decisions on facts and thorough documentation. As a natural consequence FALK has been EU Ecolabel certified. The EU Ecolabel works to reduce the overall environmental impact from production and consumption. Therefore, the EU Ecolabel evaluates the entire product lifecycle and the environmental problems that arise along the way – for the benefit of the environment, climate, humans and the earth's resources.

MEET THE DESIGNER THOMAS PEDERSEN

Thomas Pedersen's design displays typically Danish characteristics, with a clear emphasis on simplicity.

He combines classic organic lines with innovative ideas and details. Much of his fascination for furniture design comes from the fact, that it is possible to build full-scale models of the concepts he has in his head. He is firmly convinced that it is only by doing this, that it is possible to test the qualities of his products with his own body – to assess their durability and thus make certain that the results live up to expectations.

FALK was awarded a *German Design Award 2020*.
