general information

MEASUREMENTS: Measurements can vary within the limits of a reasonable tolerance depending on the thickness of the chosen covers.

ICONS: Lateral elements are right/left referred to the position of the armrest from front view.

FABRICS: Each fabric batch can show colour differences compared with fabric samples and products manufactured at different times. As for the removable covers cleaning we recommend to follow the care instructions. We advise dry cleaning for the washable fabrics.

LEATHER: Any natural marks, characteristic and colour difference compared with samples is not to be considered as a defect but as a unique feature of real leather, therefore, making it an authentic product.

POSSIBLE CHANGES or technical improvements in either materials or design may be made without the necessity of prior notice.
